

# ALU-GARD

## SECURITY SCREENING SYSTEMS

The All-Aluminium security screening solution for Australian conditions. ALU-GARD is a perforated aluminium sheet retained in an extruded aluminium frame.

ALU-GARD not only provides security, clarity of vision and strength, it is also corrosion resistant and looks great.

### **ALU-GARD Design**

ALU-GARD utilises a strong (2mm thickness), non corrosive aluminium sheet that is perforated and powder coated to exacting standards. The sheet is retained in a frame with our riveted aluminium wedge retention system. The resulting screen is strong, extremely resistant to corrosion and provides clarity of vision.

## The Complete Range

ALSPEC now offers the complete range of screening systems from our top of the range INVISI-GARD Stainless Steel Security Screens, through to ALU-GARD, Federation Cast Panels, Diamond Grilles, one way vision mesh, fibreglass and aluminium insect screen and all the associated accessories.

For a history of great service and quality built products when considering an aluminium screen door system, there's only one place that has all the solutions - ALSPEC.

## Custom Built

All ALU-GARD products are custom built, made to measure to suit your exact requirements.

ALU-GARD Security Screens are suitable for a wide range of residential and commercial applications including the following:

- Hinged Doors
- Sliding Doors
- Security Window Screens
- Balustrade
- Fencing

All fixings are covered with an adaptor ensuring a smooth and clean finished product.

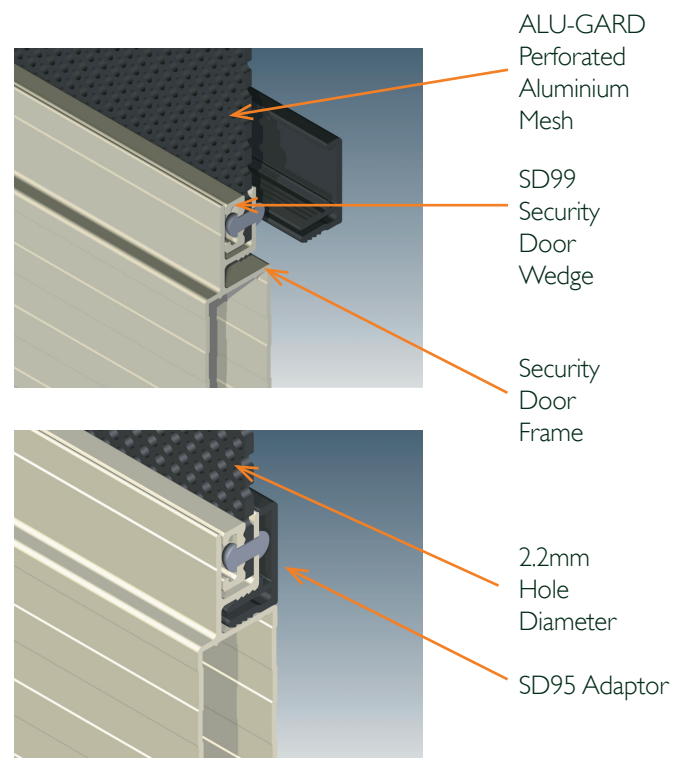

## Choice of Stylish Colours

With ALU-GARD products, matching the colour to existing door and window frames is not a problem. A full range of powder coated colours along with anodised finishes are readily available from your ALU-GARD dealer.

## ALU-GARD Test Performances

The ALSPEC ALU-GARD Screen Door System has been tested in an approved NATA test rig to Australian Standards AS5041-2003 for hinged security doors.
